Bear testimony to the Wonderful Curative Effects of

Dr. Joseph Walker's

These Bitters are not a gilded Pill to delight the eye or please the taste, but a medical preparation composed of the best vegetable ingredients known.

"The Life of all flesh is the Blood thereof."—Purify the blood and the health of the whole system will follow. It is a gentle Purgative as well as a Tonic.

CALIFORNIA
VINEGAR BITTERS,

Manufactured from the native Herbs and Roots of California,

The Great Blood Purifier.

FOR INFLAMMATORY AND CHRONIC RHEUMATISM AND GOUT, DYSPEPSIA or INDIGESTION, BILIOUS REMITTENT and INTERMITTENT FEVERS, DISEASES of the BLOOD, LIVER, KIDNEYS and BLADDER, these BITTERS have been most successful. Such Diseases are caused by VITIATED BLOOD which is generally produced by derangement of the digestive organs.

Cleanse the vitiated Blood, whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood healthy and all will be well.

CURES AND COMFORT FOR THE BED-RIDDEN.
—BY
Holloway's Ointment.

This wonderful Ointment acts like magic in relieving curing old sores, wounds, bad legs, ulcers and eruptions of the skin; when rubbed on the surface it penetrates and purifies each tissue on its passage, and exerts the most wholesome influence over the internal structures it heals by cleansing all animal fluids with which it comes in contact, and thereby promotes a sound and permanent cure.

Gout and Rheumatism.

If sufferers from the racking pains of Rheumatism and Gout this ointment will prove invaluable. After fomentation with warm water the soothing action of this Ointment is most remarkable; it seems at once to lessen inflamation, ease pain, reduce the swelling, restore natural circulation, and expels the disease. For the above complaints Holloway's Ointment and Pills are infallible spe

Diptheria, Bronchitis, Sore Throats, Coughs and Colds

his class of diseases may be cured by well rubbing the Ointment, three times a day, upon the throat chest and back of the patient. It will soon penetrate and give immediate relief. In all stages of Influenza, Colds and Bronchitis, this treatment may be followed with efficiency and safety—indeed, it has never been known to fail.

All Varieties of Skin Diseases, Scrofula and Scurvy.

This Ointment is a certain cure for Ringworm, Scurvy Scrofula or King's Evil, and the most inveterate skin diseases to which the human race is subject. They cannot be treated with a safer or more speedy remedy than Holloway Ointment, assisted by his celebrated Pills, which act opowerfully on the constitution and so purify the blood that these disorders are completely eradicated from the system, and a lasting cure obtained

Dropsical Swellings.

Beware of this dangerous and stealthy complain which frequently creeps upon us by slight squeamishness or trifling jaundice, of which little or no notice is taken until the legs begin to swell. The cause of the evil must be looked for in the liver and stomach, therefore set to work earnestly by taking Holloway's famous Pills according to the printed instructions and rubbing the Ointment very effectively over the pit of the stomach and right side where those organs lie. Most dropsical cases will readily yield to the combined influence of the Ointment and Pills.

Piles, Fistulas, and Internal Inflammation.

These complaints are most distressing to both body and mind, false delicacy concealing them from the knowledge of the most intimate friends. Persons suffer for years from piles and similar complaints when they might be Holloway's Ointment with instant relief, and effect their own cure without the annoyance of explaining their ailment to any one

Disorders of the Kidneys, Stone and Gravel

Are immediately relieved and ultimately cured if this ointment be well rubbed twice a day, into the small of the back, over the regions of the kidneys to which it will gradually penetrate and in almost every case give immediate relief; but perseverance will be necessary to effect a to rough cure.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs,	Cancers,	Scalds,
Bad Breasts,	Contracted and	Sore Nipples,
Burns,	Stiff Joints,	Sore Throats,
Bunions	elephantiasis,	Skin Disease
Bite of Moschetos	Fistulas,	Scurvy,
and Sand Flies,	Gout,	Sore Heads,
Coco-bay,	Glandular	Tumours,
Chiego-foot,	ings,	Ulcers,
Chilblains,	Lumbago,	Wounds
Chapped Hands,	Piles,	Yaws,
Corns, (Soft)	Rheumatism,	

Sold at the establishment of PROFESSOR HOLLOWAY 244 Strand, (near Temple Bar,) London; and by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices; 1s 1½d, 2s 9d, 4s 6d, 11s, 22s, and 33s each Pot.

There is a considerable saving by taking the larger

THE GRAND PROMOTERS OF HEALTH.
HOLLOWAY'S PILLS.

The grand secret of attaining happiness is to secure good health, without which life is stripped of its pleasures. The first irregularity of any function should be checked and set right by appropriate doses of these fine purifying Pills, which strengthen the system by thoroughly cleansing the blood from all impurities. They balance disordered action, remove the cause of disturbance and restore its normal and natural power to every organ, without inconvenience, pain or any other drawback

Derangement of the Bowels, Liver and Stomach Complaints.

This medicine is so well known in every part of the world, and the cures effected by its use are so wonderful as to astonish every one. Its pre-eminence as a remedy for bilious and liver complaints and derangements of the stomach and bowels, is no longer a matter of dispute or doubt. In these diseases the beneficial effects of Holloway's invaluable Pills are so permanent and extensive, that the whole system is renovated, the organs of digestion strengthened, and full and easy assimilation protected, so that both physical and moral energy are increased

Determination of Blood to the Head.

This is generally occasioned by some irregularity of the stomach and bowels, which, if not quickly attended to frequently terminates fatally. A few doses of these famous Pills never fail to give tone to the stomach regularity to the secretions, and purity to the fluids. Vertical dimness of sight and other indications of approaching apoplexy, are entirely dissipated by a course of this admirable medicine

The Female's Best Friend

For all debilitating disorders peculiar to the sex and in every contingency perilous to the life of women, youthful or aged, married or single, this mild but speedy remedy is recommended with friendly earnestness. It will correct all functional derangements to which they are subject.

Scrofula and all Skin Diseases.

For all skin diseases, however inveterate, these medicines are a sovereign remedy While the Pills act upon the blood, which they purify, the ointment passes through the pores of the skin, and cleanses every structure, as water saturates the soil or as salt penetrates meat. The whole physical machinery is thus rendered healthy, regular and vigorous

Coughs, Colds and Asthmas.

No medicine will cure colds of long duration or such as are settled upon the chest so quickly as these famous Pills. Even in cases where the first stage of asthmas has appeared these Pills may be relied on as a certain and never failing remedy, particularly if the Ointment be simultaneously well rubbed into the chest and throat night and morning.

Indigestion—Billious Headache.

These complaints may sometimes be considered trifling but it should be borne in mind that by inattention and neglect, they often end most seriously. Give early thought to a deranged stomach take Holloway's Pills, rub his celebrated Ointment over the pit of the stomach, and you will shortly perceive a change for the better in your digestion, spirits, appetite, strength and energy. The improvement, though it may be gradual will be thorough and lasting.

Holloway's Pills are the best remedy known the world for the following diseases:

Ague	Female Irregularities	Scrofula King's Evil
Asthma	Fevers of all kinds	Sore Throats
Bilious Complaints	Fits	Stone and Gravel
Blotches on the Skin	Gout	Secondary Symptoms
Bowel Complaints	Headache	Tic-Douloureux
Colics	Indigestion	Tumours
Constipation of the Bowels	Inflammation	Ulcers
Consumption	Jaundice	Venereal Affections
Debility	Liver Complaints	Worms of all kinds
Dropsy	Lumbago	Weakness, from whatever cause
Dysentery	Piles	
Erysipelas	Rheumatism	
&c.	Retention of Urine	&c.

Sold at the Establishment of PROFESSOR HOLLOWAY, 244 Strand (near Temple Bar), London, and by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices:—1s. 1½d., 2s. 9d., 4s. 6d., 11s. 22s., and 33s. each Box.

ST. ANN'S SCHOOL
FOR YOUNG LADIES,
VIEW STREET, VICTORIA.

WILL RE-OPEN ON MONDAY, 6th OF SEPTEMBER

This institution is conducted by the Sisters of St. Ann The discipline of the school is mild, but firm and regular; strict attention to its regulations required at all times. The emulation of the pupils will be excited by very gentle means, and their success rewarded by an annual distribution of premiums previous to the vacation.

Difference of religion is no obstacle to admission into the Institution, but whilst pupils are left without any interference to follow their own profession, good order requires that they should conform to the general regulations of the establishment.

Parents may rest assured that every necessary attention will be paid to comfort of pupils, whilst the utmost care will be taken to nourish in their minds those principles of virtue and morality which alone can make education profitable.

The system of Education comprises Orthography, Reading, Writing, Arithmetic, Grammar, Geography, and the use of the Globes, History, Botany, Natural Philosophy, Composition, French, Music, Drawing, Painting, Plain and Fancy Needlework in all its variety. au29

Tuesday Morning, Sept 28, 1869.

The Exhibition—Last Appeal!

The Agricultural and Horticultural Exhibition comes off in this city to-morrow; and this is, consequently, the last opportunity we shall have of again urging upon all classes of our local readers the duty of giving it their countenance and support; we cannot, therefore, permit the opportunity to pass unimproved. We are not unconscious of the tendency, especially in the higher walks of life, to indifference about such matters. To many persons pigs, cows, poultry, cabbages, turnips, potatoes, and such like have no attraction, are in fact, objects of aversion, unless, indeed, where they are presented in becoming form upon the table. Such people would almost forget that very important class upon whom they are directly dependent for their daily food In older countries the case is different. In England, for instance, Royalty itself delights in viewing cattle and vegetables, nor scorns to patronize these annual exhibitions. There the nobility, especially, take an interest in, and lend their countenance and support to, all movements and associations having in view the encouragement and improvement of the agricultural classes. This is the spirit we should wish to see cultivated in British Columbia. There is no interest more important to us as a colony than that of agriculture; and it stands far more in need of sympathy and encouragement here than in older countries. Let every class, then, go to the exhibition to-morrow, not so much for the sake of making it a financial success by the trifling entrance fee, as to show, by being present and examining the various articles on exhibition, that the farmers and their efforts in striving to excel are noticed and appreciated. To the ladies we would venture to make a special appeal in this connection. It is commonly said that nothing can succeed without the countenance and support of the ladies It is undoubtedly true that they can do very much in a matter of this sort. Their presence at the exhibition, and their sweet smiles, whether bestowed upon the farmer or upon the big turnip he may exhibit, will greatly tend to cheer and encourage those who are struggling, amid so many difficulties, to build up those interests which most emphatically may be said to underlie all permanent colonial prosperity. No little consideration is due to those gentlemen to whose untiring efforts the public are indebted for such an occasion. Few who have not experienced it, can form any idea of the amount of trouble involved in working up an exhibition of this kind in a colony so new, and in a community evincing so little appreciative interest. It would, indeed, be a cruel requital for their arduous labors if the gentlemen comprising the Committee should find any considerable portion of the public too little interested in the result to go and take a look at it! No trouble or expense has been spared in order to render the occasion as enjoyable as possible to all, and it is hoped that a dark cloud or a shower of rain will not deter people from attending some portion of the day. It is something that claims public attention only once in the year. Let it not be said that such an effort proved a failure in Victoria.

Wheat and Flour.

East of the Cascade Range enough and more than enough of flour is manufactured from colonial grain to supply the population. In the lower country there are both grain lands and grist mills. Yet notwithstanding these two facts we are consuming foreign flour at a rate of about $80,000 a year! If our people will not raise wheat, let us at least grind our own flour. It is bad enough to import wheat when we have such an abundance of land adapted for raising it; but it is far worse to import flour, thus not only supporting foreign production but foreign manufacture. There are grist mills in the lower country standing idle. Why? Simply because a duty of $1,50 a barrel was paid upon flour in order to encourage home manufacture, and a duty of 35 cents a hundred was put on wheat in order to prevent home manufacture! A more absurd condition of things it would, indeed, be difficult to conceive of. During last session of the Legislative Council an attempt was made to remove the duty from wheat; but the attempt was defeated because, forsooth, wheat had been included in the list of articles presented as the basis for a reciprocity treaty with the United States! As if the United States would listen to any propositions we, as a separate colony, could make for such a treaty! Why, then, while the trade of British Columbia would not constitute a consideration of sufficient importance to move our neighbors to entertain the idea of opening their door to our fish, cranberries, coal and lumber, it is only as a part of the North American British nation that we can hope for such a thing. Under these circumstances it is sheer folly for us to allow the opportunity to slip of making such changes in the Tariff as will enable the flour consumed in the lower country to be manufactured in it, seeing the people refuse to raise the wheat. There is every probability that material changes will be made in the Customs Tariff during next session of the Legislative Council. An effort should be made to get a free port for Vancouver Island; but, in any case, the duty should be removed from wheat so that we may manufacture our own flour, if we are too lazy to grow our own wheat. The colony is poor, and no wonder. How can it be rich when a system is pursued which holds out so little encouragement for either population or capital to remain with us? It may be said the item under consideration is not a very large one. Yet it is of just such items that the grand total is made up. "Many littles," says a Scotch proverb, "make a muckle."

By Electric Telegraph.

SPECIAL TO THE DAILY BRITISH COLONIST.

LAST NIGHT'S DISPATCHES.

Eastern States.

WASHINGTON, Sept. 24.—Monthly report of the Department of Agriculture for August says of corn, unless the close of the season is very favorable there must be 150,000,000 bushels less than a full crop. Cotton will be reduced in the yield from the Carolinas and Alabama, and there will be a material increase from Missouri to Texas. The probabilities at present favour a yield of two and three quarter millions of bales. The wheat crop as a whole is large; the only states showing a decrease are Illinois and Michigan. Iowa and California have yielded abundantly.

Koopmanschap had an interview with Secretary Boutwell to-day. The latter states that the department had no intention of interfering with the scheme of Chinese imigration unless the law was violated.

DELAYED DISPATCHES.

Europe.

MADRID, Sept. 16—The Imperial says Prim telegraphed Government that he will hesitate at no sacrifice to subdue the insurrection in Cuba.

The bodies of six murdered persons, one woman and five children, have been found in a field near Paris. The police have discovered no traces of a sassins.

Prince Metternich was received by the Emperor yesterday.

LONDON, Sept. 10 — Henry Philpot, Bishop of Exeter, died yesterday, aged 91 years.

PARIS, Sept. 21—Reports from Brazilian sources represent the defeat of Lopez at Oxura as a complete route and the struggle ended.

The *La Patrie* has different accounts, which, while acknowledging that the Paraguayans suffered reverse, maintains that Lopez is still able and dhtermined to maintain the war.

EDINBURGH Sept. 21—The Right Hon. George Patton, Lord Chief Justice of Scotland, has unaccountably disappeared. Nothing has been heard of him since Monday morning, and it is feared he has been foully dealt with.

Canada.

TORONTO, Sept 17—A fire to-day destroyed three frame houses in Queen street. Two children perished in the flames. One fireman was killed and another was fatally injured by a falling chimney. A third child was saved by throwing it out of a window.

South America.

LONDON, Sept 20—The steamer from Rio Janeiro has arrived.

Dispatches from Ascunsion, dated August 15th, report that the allies captured Assura and Pierbean. Lopez had fled, and the Paraguayans can no longer continue the struggle. The Provisional Government has been installed at Ascuncion. The above news caused great rejoicing in Brazil and the Argentine Confederation, and the war is considered ended. Buenos Ayres, Montevideo and Rio Janeiro were illuminated.

Witty Remains of Artemus Ward.

We extract the following from a new book just issued, entitled 'Artemus Ward's Panorama, as exhibited in the Egyptian Hall, London:"

"HIS ARTISTIC CAREER.

"I could draw on wood at a very tender age. When a mere child, I once drew a small cartload of raw turnips over a wooden bridge. The people of the village noticed me. I drew their attention. They said I had a future before me. Up to that time I had an idea it was behind me.

"Time passed on. It always does, by the way. You may possibly have noticed that time always does. It is a kind of way time has.

"I became a man. I havn't distinguished myself at all as an artist; but I have always been more or less mixed up with art. I have an uncle who takes photographs, and I have a servant who—takes anything he can get his hands on.

"HIS MUSICAL IDEAS.

"I like music. I can't sing. As a singist I am not a success. I am saddest when I sing. So are those who hear me. They are sadder even than I am.

"I found music very soothing when I lay ill with fever in Utah; and I was very ill; I was fearfully wasted. My face was hewn to nothing, and my nose was so sharp I didn't dare to stick it into other people's business—for fear it would stay there and I should never get it again. And in those dismal days a Mormon lady—she was married though not so much as her husband, he had fifteen other wives—she used to sing a ballad commencing, "Sweet bird do not fly away," and I told her I wouldn't. She played the accordeon divinely—accordeonly I praised her.

"THE PICTURE OF THE GREAT DESERT.

"This picture is a great work of art. It is an oil painting done in petroleum, It is by the old masters. It was the last thing they did before dying. They did this and then expired.

"The most celebrated artists of London are so delighted with this picture that they come to the hall every day to gaze at it. I wish I could take it to your residences and let you see it bets ter. Some of the greatest artists come here every morning before daylight, with lanterns, to look at it. They say they never saw anything like it before—and they hope they never shall again.

"When I first showed this picture in New York, the audience were so enthusiastic in their admiration of this picture that they called for the artist—and when he appeared they threw brickbats at him.

BRIGHAM YOUNG.

'Brigham Young has two hundred wives. Just think of that. Oblige me by thinking of that. That is, he has eighty actual wives, and he is spiritually married to one hundred and twenty more. So we may say he has two hundred wives. He loves not wisely, but two hundred well. He is dreadfully married. He is the most married man I ever saw in my life.

'I saw his mother-in-law while I was there. I can't exactly tell how many there is of her, but it is a great deal. It strikes me that one mother-in-law is about enough to have in one family—unless you are very fond of excitement.

BRIGHAM YOUNG'S FAMILY.

'The last picture I desire to show you represents Mr. Brigham Young in the bosom of his family. His family is large, and the olive branches around his table are in a very tangled condition He is more a father than any man I know of. When at home—as you here see him—he ought to be very happy, with sixty wives to minister to his comfort, and twice sixty children to soothe his distracted mind. Ah! my friends, what is home without a family?

New People Discovered in Africa.

(From the Observer)

In the southwestern portion of Africa is a track about 300 miles in breadth, from north to south, and between 400 and 500 in length, from east to west, laid down on the maps as Herero Land or Damara Land It extends from the Cunene River on the north to the Walfisch Bay on the south and from the coast to Lake Ngami in the interior. Very few Europeans have visited it; three elephant hunters only, between 1857 and 1864, Anderson whose works on 'Lake Ngami,' etc., are so well known, Green and Smuts. Anderson was so much pleased with the country that he purchased a large tract of land there, and raised some thousand of cattle. He died there in the early part of the present year.

There are two races inhabiting the country, the Bechuanas, who occupy some kraals or villages in the central and northern part, but who are in a dependent condition, and the Ovas, of several tribes, (Ovambo, Ovarkereis, Ovawbautieru, Ovamguari, Ovakuenama, Ovambuere, &c.,) a red race, with long hair—curly but never woolly—regular features and fine forms. These are the ruling race, and exhibit a high degree of intelligence, and many characteristics which indicate their Asiatic origin. They are governed by a King—Tjikongo by name—of the Ovambo race, who resides at Ondonga. He is assisted in the government by a Council without whose consent he cannot execute any measure. Each tribe has its Prince and its territory, and the princes are subject to the King and Council, by whom for any offence against the laws they may be deposed or put to death. Each principality is divided into districts governed by Chiefs, who are amenable to the Princes, but have to appeal to the King and Council. Their roads are excellent, and each has an Inspector, whose business it is to see that every person coming into the kingdom is stopped and entertained until his name and purposes can be forwarded to the King, and permission obtained for him to travel through the country. In the case of explorers and hunters there is usually little difficulty; but traders are required to procure some responsible citizen of the country to be their guarantee that they shall deal honourably, and pay all the debts they contract.

IMPROVEMENT IN GRAIN. — Experiments have demonstrated, and analogy has shown, that the finest and best samples of seed, continued for years, will improve the quality and quantity of the product. A better wheat is thus raised and even a variety may be established On this principle, in farm stock, we have the different breeds of sheep, swine, poultry, &c. Experiments have been made on the human species, but the same, without doubt, holds good there.

We plant and sow 'as it comes.' We take the seed of the same grain that we use in the aggregate, and sow it. Is not this the case almost always? Corn is an exception to some extent—but why do we except corn? Because it is handy to select. But why select at all? Because it is understood to be good. Analogically, then, it is good to do the same with wheat, oats, barley, etc. But this is less easily done, we therefore neglect it. How long will it take a farmer to go through his wheat and secure the finest and ripest heads sufficient to sow an acre, or half an acre, or a quarter—or even a pint of seed? This pint sowed will be sufficient to form a test crop. The best heads taken from this again, and sowed, will yield another test crop, from which should be taken as before; and so on for a number of years, say half a dozen—more still better. But three or four years will work a decided difference. But the thing should be continued from selected wheat every time. In this way grain can be improved and crops enlarged. There will be larger grains, earlier maturity and better growth.—*Rural World.*

BOOK BINDING.—P. N. Hibben & Co have, in connection with their Book and Stationary Business, added BOOK BINDING, and the various branches connected therewith, and will add the mechanical parts and material necessary for meeting the requirements of the Colony, guaranteeing neatness, dispatch and satisfaction in all work entrusted to them. *

BUY IT AND TRY IT.—Russell's celebrated coffee. The best on the Coast. Warranted a pure and healthful beverage. *

THE BARK "B. U. M. S."—Many inquiries have been directed by the curious to ascertain how a vessel came to receive so extraordinary a name as that borne by the bark B. U. M. S., which lately loaded at Moody's mills. We have sought an explanation and have been favored with one. It seems that it was at first intended to christen the bark in honor of a handsome young lady, a resident of the Eastern port at which the vessel was constructed. Upon the day set for the launch the builder prepared a collation at the shipyard for many friends, but in advance of the invited guests came like Egyptian locusts many guests who were not invited, and who consumed all that had been prepared for the holders of the bi's of paste board. The builder was indignant, the invited guests were indignant, and the young lady was so very hungry that she resigned all claim to the ship's name and left the yard in a great "huff." The owner was in a quandary. The last block had been knocked away, the traditional bottle of champagne was ready to be broken over the bow of the ship and she was gliding swiftly off the ways with the worst of all bad omens—no name. "What shall we call her?" screamed the headcarpenter from the receding vessel. 'Call her," cried the owner in desperation, and with a spiteful look at the bummers who had gobbled up the feast, "Call her the "*Bums*." And B. U. M. S. she was christened, and B. U. M. S. she will continue till the end of the chapter.

HOPS.—It is generally admitted that the soil and climate of this island are peculiarly adapted for hop raising. Indeed we are not left without practical proof of this, yet singularly enough, what hops are consumed in the Colony are for the most part raised in California, and are a very inferior article. Of course the consumption is not great; yet it is a circumstance not unworthy of attention that we are sending about $7000 a year out of this Colony for hops. The importance of the cultivation of hops must not, however be guaged by home consumption. It is well known that the best variety of Kent hop raised on this island is, for brewing purposes worth fully twice as much as the California article, the climate of that State being unsuited to the production of the hop. There can be no doubt whatever that a ready and remunerative market would be found in California and other countries on the Pacific for hops raised here. It is, indeed, surprising that hop culture has not been gone into on a larger scale than it has in this Colony. The best variety is the Kent "Golding's Hop." From roots brought out by Mr J S Smith, of the Fairfield Estate, was picked a considerable quantity this season. They are the abovementioned variety, and were readily purchased by Mr Langley, of this city, at a price which no other hop could command. A sample of this hop will be on exhibition to-morrow.

AFTER THE POUNDKEEPER.—On Saturday evening a solitary bull of gigantic frame and ferocious appearance "might have been seen" perambulating the principal streets in defiance of the Corporation or its Poundkeeper. The fellow paused leisurely up Yates street, through Broad to Trounce Alley, stopped and bellowed long and loud in front of the City Hall. Meeting no response save the echo that the silent street gave back, he wheeled about and proceeded to the Poundkeeper's residence, where he sniffed about the door of the premises selected as the City Pound, and finally strode off leisurely countryward. The bull way evidently in search of the Poundkeeper; probably to ask him to take "a horn"—or two.

DEMOCRATIC ROT.—Here is a specimen of the sort of *pabulum* served up to their readers by Democratic [Demoniac?] editors: "We believe that the Democratic party of to-day are fighting beneath the banner inscribed with God's eternal law of nature which classifies the races of men as all other portions of the animate and inanimate creation are classified, and grouped in families with clear lines of demarcation, ever to be maintained if we would win the favor of High Heaven. The philosophy which seeks to tear down and destroy the dividing lines between the races of men is at war with God's law of humanity, and if successful will bring down the curse of offended Deity in burning wrath upon a nation foredoomed to an early death.

SALE OF CAPT. GOOD'S FURNITURE.—The household furniture and effects of Capt. H. B. Good, at the Pandora House, will be sold by Mr. Franklin at auction this morning. The sale will commence at 11 o'clock. The lot consists of parlor, drawingroom, bedroom and kitchen furniture, carpets, household linen, platedware, lamps, &c, and a Bradford washing, ringing and mangling machine. The furniture is new and in excellent order and offers a favorable opportunity to parties about to furnish.

GRATIFYING.—The Howe Sound Whaling Company have caught two more whales Several of these huge finny visitors have also made their appearance in Burrard Inlet and spouted defiance at the millmen.

THE LIQUOR LAW AGAIN.—J. Cazarette was defended by Mr. Bishop yesterday on a charge of selling a can of villainous stuff to a poor Indian, who is debarred by the "righteous" statute from drinking as good grog as his white brother,—consequently must drink poison that sets his brain on fire and hurries him into his grave. As a proof, in ten years the Indian population of Victoria and vicinity has declined from 8000 to less than 700. Protecting, the Indians, forsooth! Don't this result appear like it? The whole policy of legislation towards the redman has been one of cruel neglect and extermination. When a movement was made in the Island Assembly to throw open the liquor traffic, and license regular dealers to treat Indian customers the same as they would treat white customers, up jumped the philanthrophist and declared the proposition to be "un-Christian." And the Indian has gone on ever since, getting from a pack of infernal villains like Cazarette as much as ever they could drink of bad liquor and dying by scores and hundreds. A more complete failure than the Indian liquor law of this Colony was never known. Cazarette was remanded for one day.

THE GREAT SHOW.—Davies' cattle yard is being put in order for the reception of animals and produce for the great Exhibition to-morrow, and Councillor Allatt is engaged in erecting a spacious pavilion on the lot adjoining the yard for the reception of fruits and flowers, and for dancing purposes after the show is over. The pavilion is 81 feet by 33 feet 6 inches, with rooms at the rear for refreshments and ladies' parlor, together with a platform for Haynes' Band. The cattle yard is 240 feet long by 60 in width; it has 19 pens for hogs and 25 for sheep; poultry coops, closed stalls for horses, corrals for horned cattle, feeding troughs for stock and water *ad lib.* for the million. After award of the prizes, dancing will commence in the pavillion, and will be continued until a late hour in the evening. The Show promises to prove a very fine one, and, should no untoward circumstance—such as bad weather—occur, it will, we think, surpass all previous efforts of the kind. Capt. Lyons, of H.M.S. Charybdis, yesterday kindly sent up sails and a number of blue-jackets to assist in erecting the pavilion.

SALE OF THE GUNBOAT FORWARD AND GOVERNMENT STORES.—At noon to-day, at the Naval Yard, Esquimalt, J P Davies & Co will offer for sale to the highest bidder the gunboat Forward, together with her masts, yards, standing and running rigging, anchors, cables, machinery and spare gear. The Forward is a sister ship of the Grappler and is, in many respects, the best vessel of the two. It is said that a vessel of the class of the Forward is wanted by the Mexican Revolutionists. At 11½ o'clock will be offered a quantity of Government stores 'Busses will start from the Adelphi at 10:30 o'clock this morning.

REGULAR PACKET.—The steamer Emma will sail from Dickson, Campbell & Co.'s wharf for Port Townsend on Mondays and Fridays at 8 o'clock a. m., carrying freight and passengers. The first trip will be made on Friday next. The fare is fixed at $3. This arrangement will prove valuable to parties bound for the Sound as well as to passengers from Portland bound for Victoria. Encourage the Emma.

HON W A G YOUNG, late Colonial Secretary of the Colony, has been offered the appointment of Assistant Colonial Secretary for the Colony of Jamaica, salary £800 per annum. There were formerly a Financial Secretary and a Colonial Secretary in Jamaica, but the officers holding the positions are now known as Colonial Secretary and Assistant Colonial Secretary.

HOMICIDES.—A gambler named Frank Whitney, at Portland, struck another gambler, named John Harris, upon the head with an umbrella, when Harris plunged a knife nine times into Whitney, killing him.... At Seattle, on Friday evening, John Murphy, a boatman, fired a shot at a man named James Dixon and missed. Dixon instantly drew his revolver and killed Murphy.

FROM PUGET SOUND AND PORTLAND.—The steamer Wilson G. Hunt arrived at 5½ o'clock last evening, bringing 70 passengers and a quantity of produce for the Exhibition. Among those on board were Messrs. R Broderick and J. Heywood, from San Francisco. The Gussie Telfair would leave Portland so as to arrive at Victoria on Friday.

COST OF RULING.—The Emperor of Russia gets $25,000 a day; the Sultan $18,000, Napoleon $14,219; the Emperor of Austria $10,000; the King of Prussia $8,210; Victor Emanuel $6,340; Victoria $6 270. Leopold of Belgium $1,642; the Governor-General of Canada $137, President Grant $68 50; and the Governor of British Columbia $54 79.

THE Enterprise will leave for New Westminster at 5 o'clock this morning and return to-night or early to-morrow with exhibitors and articles for our great Annual Show. We hope the Lower River will be well represented and that the excellence of its products will cause a goodly number of the prizes to gravitate in its direction.

FOR THE SHOW.—Mr. James Larman dug in his garden, Johnson street, yesterday, one potatoe weighing 3½ pounds and another weighing 2¾ pounds. Whoppers!

THE American bark Gem of the Ocean Capt Bowling, arrived on Sunday night from San Francisco. She is bound for Burrard Inlet for lumber for the San Francisco market.

THE PARK ASSAULT.—Wm. Lush was yesterday sent for trial to the Court of Assizes on the charge of assaulting a marine with a knife.

THE jury in the M. Wells fire case found that the fire was purposely caused, but that there was no evidence to show who kindled the flames.

The ship Maude Ellen has sailed from San Francisco for Victoria to load lumber at the B. C. & V. I. Mills for Australia.

BARK RIVAL.—Millard & Beedy have the Rival on the berth at San Francisco for Victoria, to sail on the 2nd proximo.

THE American bark Delaware, bound for Moody's Mills, Burrard Inlet, passed up the Straits on Sunday.

THE E. Anderson went to Bellingham Bay yesterday and is not expected to arrive with the mails until noon to-day.

REFRESHMENTS AT THE SHOW.—Mr Piper and Mr. Mady will provide the refreshments at the Exhibition.

THE SCHOOLS.—A general holiday, we learn, will be proclaimed at the schools to-morrow.

REMARKABLE DISCOVERY IN GERMANY.—We are informed by a letter from Frankfort-on-Maine that in prosecuting some earthworks connected with the Manau Railway, the workers have found, about half a league to the east of the Frankfort station, some Roman graves, containing highly adorned dishes of *terra sigillata*. One small copper coin was also discovered, supposed to date from the time of Julius Cæsar. As no relics of the ancient Romans have ever been found in the immediate vicinity of Frankfort, though a great number of horse-shoes, tomb-stones, and other objects, have been discovered at Rodelheim, a league to the west of the city, we have reason to believe the conjecture well founded that in the time of the Romans the highroad from Mayence to the Taunus fortresses on the Nidda turned off in a northerly direction to avoid the marshy plain in which Frankfort is situated.

CHEAP SHAVING.—Having recovered his health, Fred Payne's shop is again open to the public. Prices as before. *

FELL'S COFFEE has become the favorite Colonial beverage, and is to be found on every breakfast table from Victoria to the foot of the Rocky Mountains. *

MUSIC.—The undersigned informs the public in general that he is the *only teacher* of the *Pianoforte* who *combines Thorough-bass and Composition* with his instruction in music and singing, and is also the most *experienced* and *legitimate Tuner of Pianofortes in the Colony.* Terms—Pianoforte and Singing $6 per. month. Pianofortes tuned and repaired at $3 00 and upwards. Music provided for Balls, Evening parties and Dinners.—DIGBY PALMER, Kane street, or at T N Hibben & Co's Book Store, Government street.—Mrs Palmer instructs beginners on the Piano at $3 00 per month. *

BREAKFAST.—EPPS'S COCOA.—GRATEFUL AND COMFORTING.—The very agreeable character of this preparation has rendered it a general favorite. THE CIVIL SERVICE GAZETTE.—The singular success with which Mr Epps attained by his homœpathic preparation of cocoa has never been surpassed by any experimentalist. By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well selected cocoa, Mr Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills." Made simply with boiling water or milk Sold by the trade only in ¼lb., ½lb., 1lb. tin-lined packets, labled—JAMES EPPS & Co., Homœpathic Chemists, London, England. se18 6m tu&sa

HOLLOWAY'S OINTMENT.—Turn which way you will, go where you please, persons will be found who have a ready word of praise for this Ointment. For chaps, chafes scalds, bruises and sprains, it is an invaluable remedy; for bad legs caused by accident or cold it may be confidently relied upon for effecting a sound and permanent cure. In cases of swelled ancles, erysipelas, gout and rheumatism, Holloway's Ointment gives the greatest comfort by reducing the inflammation, cooling the blood, soothing the nerves, adjusting the circulation, and expelling the impurities. This Ointment should have a place in every nursery. It will cure the long list of skin affections which originate in childhood and gain strength with the child's growth. 30

CAUTION!

THE Fashionable World and all purchasers of FLORIDA WATER, should be careful to see that they get the true MURRAY & LANMAN'S FLORIDA WATER. All other preparations under the name of Florida Water are comparatively worthless, and possess none of the virtues of the genuine article, which is prepared only by Lanman & Kemp, New York, sole proprietors. 658*

RELIEF AT LAST!

"I had suffered much from dizziness or vertigo. Three bottles of Bristol's Sarsaparilla and two phials of Pills entirely cured me."

R. T. COLEMAN, Idaho City. 578*

MERIT REWARDED.—It must be a source of gratification and pride to the inventor, after years of study and toil, to have success crown his efforts and know his labors are appreciated. This is peculiarly the case with Dr. Walker's Vegetable Vinegar Bitters, which is composed of purely vegetable preparations, making the most effectual alterative that is it possible for the medical intelligence and skill of our times to produce 27

ALL DISEASE is fed by impure blood—'MACAMOUSE' is the only remedy that has been found that will *radically purify the blood* and restore it to a healthy condition. 6*

Medical.

French Medicines,

PREPARED BY

GRIMAULT & CO.

Chemists to H.I.H. Prince Napoleon

PARIS.

These different medicines represent the most recent medical discoveries, founded on the principles of Chemistry and Therapeutics. They must not be confounded with secret or quack medicines, as their names sufficiently indicate their composition; a circumstance which has caused them to be appreciated and prescribed by the Faculty in the whole world. They widely differ from those numerous medicines advertised in the public papers as safe to cure every possible disease, as they are applicable only to but a very few complaints. The most stringent laws exist in France with regard to the sale of medical preparations, and only those which have undergone an examination by the **Academy of Medicine** and have been proved efficacious, either in the hospitals or in the practice of the first medicalmen, are authorized by the Government. This fact must be a guarantee for the excellence of **Messrs. Grimault et Co.'s** medicines.

DOCTOR LERAS'

(Doctor of Medicine.)

LIQUID PHOSPHATE OF IRON.

The newest and most esteemed medicine in cases of: **Chlorosis Pains in the Stomach Difficult Digestion, Dismenorrhea, Animea, General Debility and Poorness of blood.**

It is particularly recommended to regulate the functions of nature, and to all ladies of delicate constitution, as well as to persons suffering under every kind of debility whatsoever. It is the preservative of health par excellence, in all warm and relaxing climates.

NO MORE COD LIVER OIL!

Grimault's Syrup of Iodized Horse Radish.

This medicine has been administered with the utmost success in the Hospitals of Paris It is a perfect substitute for Cod Liver Oil and has been found most beneficial in **Diseases of the Chest, Scrofula, Lymphatic Disorders, Green Sickness, Muscular Atony, and Loss of Appetite.** It regenerates the constitution in purifying the blood, it being the most powerful depurative known. It has also been applied with happy results in **Diseases of the Skin.** Further, it will be found to be of great benefit to young children subject to **Humors and Obstructions of the Glands.**

CONSUMPTION CURED!

Grimault's Syrup of Hypophosphite of Lime.

This new medicine is considered to be a sovereign remedy in case of Consumption and other Diseases of the **Lungs.** It promptly removes the most serious symptoms. The cough is relieved, night perspirations cease and the patient is rapidly restored to health.

N.B.—Be sure to see that the signature of **Grimault & Co.** is affixed to the bottle, as this Syrup is liable to imitations.

NO MORE DIFFICULT OR PAINFUL DIGESTION!

DR BURIN DU BUISSON'S

(Laureate of the Paris Imperial Academy of Medicine

DIGESTIVE LOZENGES

This delicious preparation is always prescribed by the most reputed medical men in France in cases of derangements of the digestive organs, such as

Gastritis,
Gastralgia,
Long and Laborious Digestion,
Wind in the Stomach and Bowels,
Emaciation,
Jaundice, and
Complaints or the Liver & Loins

NERVOUS HEADACHE
NEURALGIA,
DIARRHŒA, DYSENTERY,

INSTANTLY CURED BY

Grimault's Guarana.

This vegetable substance, which grows in the Brazils has been employed since time immemorial to cure **Inflammation of the Bowels.** It has proved to be of the greatest service in cases of **Cholera** as it is a preventive and a cure in cases of Diarrhœa

GRIMAULT & Co.'s

Syrup of Ferruginous Peruvian Bark.

Chemists to H. R. H. Prince Napoleon, 43 rue Richelieu, Paris.

This preparation has the great advantage of combining two most powerful tonics known in the medical world. Of perfect limpidity and agreeable taste, this Syrup is taken with pleasure and suits the most delicate stomachs

It is par excellence the FERRUGINOUS TONIC which should be administered to ladies of delicate constitution, young persons backward in attaining the age of puberty, and to children of a weak constitution and is particularly employed in the treatment of Chlorosis, Anæmia, Pale Complexion, Gastrics, Gastralgæ, Whites, Leucorrhœa, Debility, Want of Appetite, Poverty of Blood, &c.

No more Dyspepsia, Vomiting during Pregnancy, or Sea Sickness.

GRIMAULT'S ELIXIR OF PEPSINE.

Pepsine undergoes no alteration in this delicious preparation. It will consequently be preferred to Pepsine Powders or Pills It is the digestive medicine par excellence and is at the same time a most agreeable table liqueur.

Messrs. Grimault beg to call the attention of the faculty and the public in general to the fact that real pepsine is prepared in France alone. It is far superior to all others often extracted from the stomach of porcs.

NO MORE COPAIBA OR CUBEBS!

Grimault's Capsules and Liquid Extract of Matico Vegitalis.

Where all other preparations have failed these preparations will always effect a cure. These insure rapid and extraordinary cure of severe recent and chronic cases of private diseases. They are used in the hospitals of Paris by the celebrated Dr Ricord, and found greatly superior to all hitherto known mineral remedies and Copabia and Cubebs. The injection is used in recent, and capsules in more chronic cases.

SYRUP AND LOZENGES OF SAP OF SEA PINE.

Prepared by Lagasse, Chemist, at Bordeaux, posesses the Balsamic and Resinous Properties of the Sea Pine. It is employed with success against affections of the Chest, Cold, Bronchitis, Catarrh, Asthma, Influenza, Hooping Cough, etc.

Phœnix Fire Assurance COMPANY.

LOMBARD STREET and CHARING CROSS
LONDON.
Established 1782.

For Insuring every kind of Property in all parts of the World from Loss or Damage by Fire.

THE PROMPTITUDE AND LIBERALITY WITH WHICH its engagements are always met by this Company are well known, and the importance of its relations with the public may be estimated from the fact that since its establishment, it has paid more than Nine Millions Sterling in discharge of claims for Losses by Fire.

The security offered to the public by the Phœnix Office is unlimited, comprising in addition to the large invested capital of the Company the whole fortunes of numerous proprietors, composed of some of the most opulent merchants and others in the United Kingdom. Annual and short time Insurances are effected upon all kinds of property in Vancouver Island and British Columbia on the most favorable terms.

Prompt cash payment and full power to settle all losses and claims without referring to the Head Office in London.

Medical.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears,* and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia,* and the various *Ulcerous* affections of the muscular and nervous systems.

Syphilis or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. *Leucorrhœa* or *Whites, Uterine Ulcerations,* and *Female Diseases,* are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout,* when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation* of the *Liver,* and *Jaundice,* when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless,* and troubled with *Nervous Apprehensions* or *Fears,* or any of the affections symptomatic of *Weakness,* will find immediate relief and convincing evidence of its restorative power upon trial.

PREPARED BY

Dr. J. C. AYER & CO., Lowell, Mass.,

Practical and Analytical Chemists.

SOLD BY ALL DRUGGISTS EVERYWHERE.

Ayer's Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

Prepared by Dr. J. C. Ayer & Co.,

Coughs, Colds, Rheumatism, Diarrhœa, Dysentery, and Fever.

THE "TIMES," OF INDIA, STATES "that the discovery of Dr. J. COLLIS BROWNE'S CHLORODYNE is a greater blessing to the human race than even the discovery of Vaccination." This remedy is invaluable in the above diseases, and is indispensable to Emigrants, Travellers, and Families, a few doses being generally sufficient

DR. J. COLLIS BROWNE'S CHLORODYNE—The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport, that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne.—See "Lancet," December 31, 1864.

DR. J. COLLIS BROWNE'S CHLORODYNE.—Extract from "Medical Times," January 12, 1866:—"Is prescribed by scores of orthodox medical practitioners. Of course it would not be thus singularly popular did it not supply a want and fill a place."

DR. J. COLLIS BROWNE'S CHLORODYNE is the best and most certain remedy in Coughs, Colds, Asthma, Consumption, Neuralgia, Rheumatism, etc.

DR. J. COLLIS BROWNE'S CHLORODYNE—Extract from the General Board of Health, London as to its efficacy in cholera. "So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases."

From A. Mountgomery, Esq., late Inspector of Hospitals, Bombay. "Chlorodyne is a most valuable remedy in Neuralgia, Asthma and Dysentery. To it I fairly owe my restoration to health after eighteen months' severe suffering, and when all other medicines had failed."

It is necessary to warn the public against spurious imitations, which only bear the pirated name, and are deficient of the true properties of the only genuine, viz: DR. J. COLLIS BROWNE'S, as was proved before Vice-Chancellor Sir W. P. Wood, in the Court of Chancery, in case Browne vs. Freeman, when the Vice-Chancellor stated that the story of Freeman being the Inventor was DELIBERATELY UNTRUE.

Sold in Bottles, 1s. 1½d., 2s. 9d., 4s. 6d., and 11s., by the Sole Manufacturer, J. T. DAVENPORT, 33, Great Russel Street, Bloomsbury, London. je14 1aw

JUDSON'S
Simple Dyes for People

REGISTERED

are undoubtedly the most useful article ever offered to the public.

Anyone can Use them.

Anything can be dyed with them in a few minutes without soiling the hands. In England "Judson's Dyes" are as "Household Words." Articles of clothing that have been put aside as faded and useless, may be made nearly equal to new, by merely following the simple directions appended to each bottle of Dye.

NAMES OF COLORS.

Magenta	Mauve	Violet	Scarlet	Green	Blue
Pink	Crimson	Brown	Canary	Orange	Blue

PRICE SIXPENCE PER BOTTLE.

May be had of Druggists and Storekeepers throughout the world; or wholesale of

DANIEL JUDSON & SON,
19a Coleman street, London.

N.B.—A small bottle of color will dye 12 yards of bonnet ribbon.

SEE THAT YOU GET JUDSON'S SIMPLE DYES the wonderful popularity of which has caused numerous inferior imitations, which are calculated to injure both buyers and sellers.

for our Catalogue of instructions how use the same for twenty different purposes.

GUNPOWDER.

Sporting, Rifle, Cannon, Mining and Blasting.

Fresh from the Mills of

THE CALIFORNIA POWDER WORKS.

Extract from Report of Committee of Judges on Class 5 in the Sixth Industrial Exhibition of the California Mechanics' Institute, 1868.

Your Committee did not subject to proof the samples of powder exhibited at the Fair, but went to the different magazines, and themselves selected samples selected from packages destined for trade.

The various samples thus obtained, embracing Sporting, Cannon, Musket and Blasting Powder, were subjected to divers proofs, the chief of which, and that upon which we most relied, was with the "Eprouvette" mortar charged with 1 ounce of powder and a twenty-four pound ball.

After many days consumed in careful experiments—time which we freely bestowed, because of the great interest felt in the question both by the competing parties and the public—and after careful comparison of the results obtained, we found that all the powder submitted to test was of excellent quality. We also found that the superiority, on the whole, rested with the California Powder Works, and therefore recommend an award of a gold medal to that company, and a silver medal to the Pacific Powder Mills.

Signed, JOHN J HALEY,
HENRY J PIPPY,
Committee.

Groceries and Provisions.

THE PERFECTION OF PREPARED COCOA.

MARAVILLA COCOA.

SOLE PROPRIETORS,

TAYLOR BROTHERS,

LONDON.

THE COCOA (OR CACAO) OF MARAVILLA is the true THEOBROMA LINNÆUS. Cocoa is indigenous to South America, of which Maravilla is a favored portion. TAYLOR BROTHERS having secured the exclusive supply of this unrivalled Cocoa, have, by the skilful application of their soluble principle and elaborate machinery, produced what is so undeniably the perfection of prepared Cocoa, that it has not only secured the preference of homœopaths and cocoa-drinkers generally, but many who had hitherto not found any preparation to suit them, have after one trial, adopted the Maravilla Cocoa as their constant beverage for breakfast, luncheon, &c.

"AN UNPRECEDENTED SUCCESS."

See following Extract from the Globe of May 14, 1868.

"Various importers and manufacturers have attempted to attain a reputation for their prepared Cocoas, but we doubt whether any thorough success had been achieved until Messrs Taylor Brothers discovered the extraordinary qualities of "Maravilla" Cocoa.

Adapting their perfect system of preparation to this the finest of all species of the Theobroma, they have produced an article which supersedes every other Cocoa in the market. Entire solubility, a delicate aroma and a rare concentration of the purest elements of nutrition, distinguish the Maravilla Cocoa above all others For Homœopaths and Invalids we could not recommend a more agreeable or valuable beverage."

Sold in packets only by all Grocers, of whom also may be had Taylor Brothers' Original HOMŒOPATHIC COCOA and SOLUBLE CHOCOLATE.
